

CALCIUM CHLORIDE

OMT MARINE TERMINALS, LLC CUSTOMER STORY

Vic Liotta, President at OMT Marine Terminals, LLC

100 PEDESTRIANS A DAY. 0 COMPLAINTS. PLENTY OF COMPLIMENTS.

Vic Liotta is the President of OMT Marine terminals in New York and as such, oversees material purchasing and snow removal of over 22,000 square feet. Because they are a marine terminal, there are people working outdoors year round, and to keep them safe, they cannot afford

any downtime or damage to equipment due to snow and ice. They need an ice melt product they can depend on - and their number one choice is PELADOW™. With OxyChem Calcium Chloride, they know they're getting a quality, American-made product they can count on.

“PAST PRODUCTS WE’VE USED DO NOT COMPARE TO PELADOW™.”

Premier Product, Premier Benefits.

As the premier snow- and ice-melt material, PELADOW™ provides exceptional performance all winter long. It is backed with premier benefits: reliable supply, consistent quality, quick response, and leading technical service and support.

Contact a PELADOW™ distributor today, and experience what a first-rate snow and ice melter can do for you.
